

TINY'S TOY BOX

FROM BECCA G.

Materials:

Kraft Paper Boxes with
Heart Shape Hole (No Film)

can be found on Amazon

Filler can be any spare toy parts
you have, but this is what I used:

Crinkle paper

Vine stars

Birdie bagels

Finger traps (cut into 3rds)

Sola chips

Instructions:

Build box by folding on the creases, no glue.

Fill with crinkle paper.

Add your birds favorite toy parts.

Include the cardboard heart and close box.

Treat fill recommendations:

I like to put a high value treat inside the finger trap, like
piece of millet spray or an almond.

You can pierce the sola discs with seeds, like oat groats,
or other small treats.

Nutriberry's are great to put right on top to catch the
birds attention if they aren't used to the boxes.
